Object:

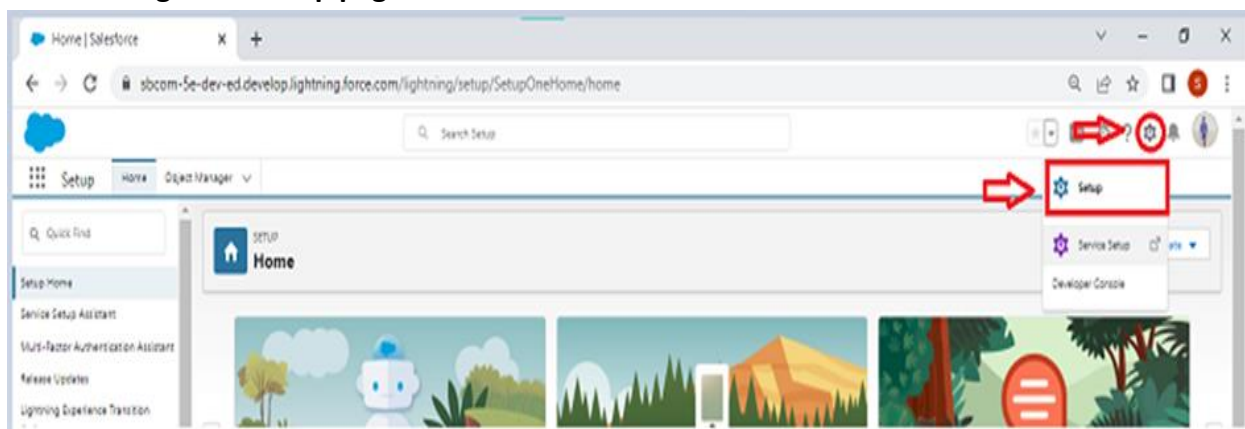

What Is an Object?

Salesforce objects are database tables that permit you to store data that is specific to an organization. What are the types of Salesforce objects

. Salesforce objects are of two types:

1. Standard Objects: Standard objects are the kind of objects that are provided by salesforce.com such as users, contracts, reports, dashboards, etc.
2. Custom Objects: Custom objects are those objects that are created by users. They supply information that is unique and essential to their organization. They are the heart of any application and provide a structure for sharing data.

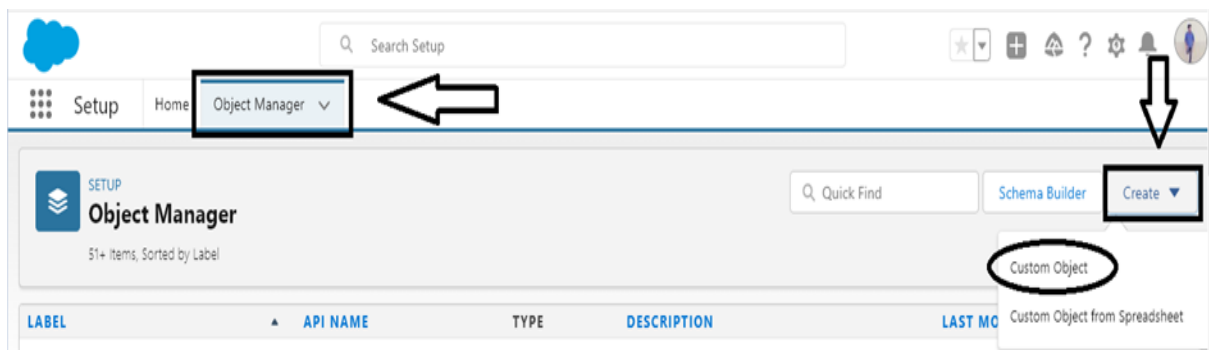

. To Navigate to Setup page:

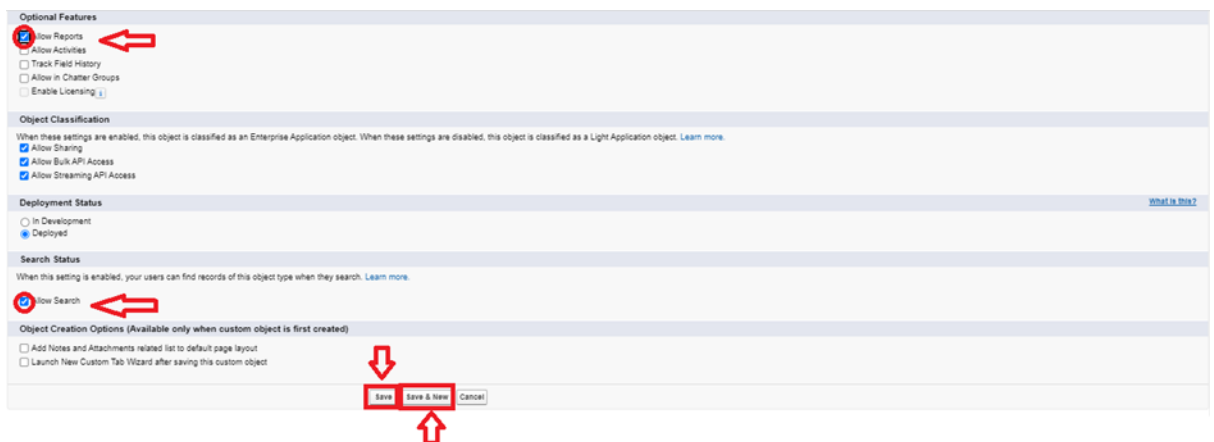

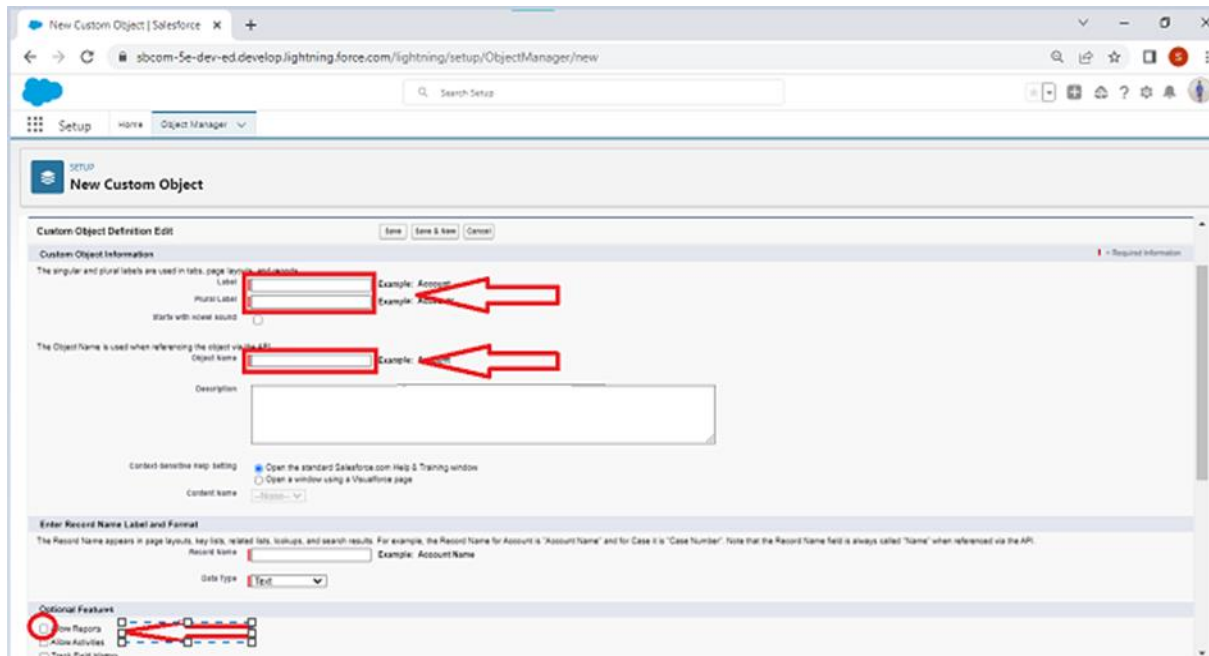

To create an object:

1. From the setup page ? Click on Object Manager ? Click on Create ? Click on Custom Object.

PROJECT OBJECTS FILES
